

A BETTER WAY TO RECYCLE

HEALTHCARE ELECTRONICS RECYCLING

Homeboy Electronics Recycling is a certified and award-winning social enterprise offering nationwide service for the proper disposal and management of your IT assets.

RECYCLE WITH US, IMPACT A LIFE

As one of the few R2 (Responsible Recycling) and B Corp™ certified companies in the world we are committed to the highest possible standards for electronics reuse, e-waste recycling, and the destruction of sensitive data.

Each year, while providing on-the-job training and employment for people who face systemic barriers to work, we divert millions of pounds of electronics away from the landfill. By simply contracting with us you can help us achieve our mission.

(323) 222-3322 - homeboyrecycling.com

SENSITIVE SECURITY

We work with IT departments for office equipment and can recycle a wide variety of medical equipment, as long as it is not hazardous waste or a biohazard. We are fully equipped to handle your most sensitive data destruction needs with processes that conform to the requirements of HIPAA and related Business Associate Agreements.

- R2 CERTIFIED
- NIST SP 800-88 CONFORMANCE
- HIPAA, FACTA COMPLIANT
- ONSITE HARD DRIVE SHREDDING
- WITNESSED/RECORDED DESTRUCTION
- SERIALIZED CERTIFICATES OF DATA DESTRUCTION
- 24/7 MONITORED FACILITY
- CHAIN OF CUSTODY PROTOCOL

SENSITIVE SECURITY

HEALTHCARE ELECTRONICS RECYCLING

SUPPORTING THOSE THAT PROVIDE CARE

When it comes to proper healthcare electronics recycling, Homeboy Electronics Recycling is the best in the business. We have extensive experience working with hospitals, clinics, insurers, and other healthcare organizations and we fully understand the requirements of HIPAA and related Business Associate Agreements.

- WHAT WE DO
- HIPAA-COMPLIANT DATA DESTRUCTION
- RESPONSIBLE E-WASTE RECYCLING
- IT ASSET RECOVERY
- SERIALIZED REPORTING AND ASSET MANAGEMENT

FINDING RESIDUAL WORTH

We help maximize your equipment value recovery, while doing right by the environment, by extending the useful lives of unneeded devices and harvesting parts from obsolete equipment. Our skilled technicians repair and refurbish items to increase resale potential.

IT ASSET DISPOSITION

REMARKETING

We buy corporate IT assets outright or remarket them on a consignment basis. Get paid for your decommissioned equipment!

INVENTORY TRACKING

We detail your asset list and reconcile it against internal records and tracking systems.

REVERSE LOGISTICS

Custom solutions for recalls, returns management, decommissioning, and surplus liquidation.

CASE SUMMARY

We perform ITAD services for a \$20B+ healthcare company with facilities all over the country. Our project managers travel to each location to asset tag and inventory all equipment—typically 250 to 1,000 devices at a time. While there, we remove and shred all hard drives, matching their serial number to that of their parent device. After reconciling the inventory with the client, we ship the assets back to our processing facility. Upon receipt, we refurbish and remarket as many of the assets as possible, sharing the proceeds back with the client. These rebates often exceed all applicable service charges.
